

EVERYBODY LIKES SITTING IN FIRST CLASS.

Neal was first in line in the second grade because his last name began with a "B." In the third grade, a girl whose last name began with an "A" was first in line. Neal never saw her face. To this day he still imagines what her face looked like.

There are massaging chairs, plush white leather seats and scrum-deli-umptious food in this first class. The same first class with low fares to SF, NY, LA, Washington Dulles and Vegas.
